Agenda Item: 4.5

CRAIG L. HOUSE, Deputy Director,  
Finance  
March 1, 1998

### APPROVAL OF 1998 STATE HIGHWAY OPERATION AND PROTECTION PROGRAM (SHOPP)

#### RECOMMENDATION

The Department recommends that the California Transportation Commission (Commission) approve the 1998 State Highway Operation and Protection Program (SHOPP) with project changes as shown in Attachment A. These changes have occurred since the Department presented the 1998 Proposed SHOPP to the Commission in January 1998.

#### COMMISSION RESPONSIBILITY

Government code Section 14526.5 requires the Commission to approve and submit the 1998 SHOPP to the Legislature and the Governor not later than April 1, 1998. Following approval of the SHOPP, the Department will work closely with the various regional transportation planning agencies to incorporate the SHOPP into the regional Federal Transportation Improvement Program to establish Federal funding eligibility.

#### SHOPP DEVELOPMENT

Senate Bill 45 (Kopp) requires the Department to prepare a ten-year state rehabilitation plan for the rehabilitation and reconstruction of all state highways and bridges owned by the state. The Ten-Year State Highway System Rehabilitation Plan was submitted to the Commission for comments at the February 1998 Commission meeting.

The 1998 SHOPP is consistent with funding recommended in the first four years of the Ten-Year State Highway System Rehabilitation Plan. It is also consistent with funding in the 1998 STIP Fund Estimate and the Department's Policy for Management of the SHOPP.

The 1998 Fund Estimate provides \$3.3 billion over the four-year SHOPP period, a \$777 million increase over the 1996 baseline. A special emphasis is being placed on roadway rehabilitation. During the four-year period it is planned to rehabilitate about 8,000 lane miles, including implementation of 300 lane miles of longer-life pavement on high traffic volume

Approval of 1998 SHOPP

Item: 4.5

March 31-April 1, 1998

Page 2

routes, and to rehabilitate about 450 bridges. Seismic retrofit of bridges is a top priority of the Department and is being funded separately from the SHOPP.

#### PROPOSED CHANGES (ATTACHMENT A)

Since submittal of the 1998 Proposed SHOPP, the Department has continued to review currently programmed projects and new projects recommended for funding in the 1998 SHOPP. Attachment A lists cost, scope and schedule changes the Department recommends be made to the 1998 Proposed SHOPP in order to publish a current up-to-date Commission approved 1998 SHOPP document. Attachment A also identifies a net increase of \$10 million in funding due to correcting technical errors and an additional \$37 million of storm damage projects that are or will be funded with Federal Emergency Relief Funds. These changes are reflected in a revised 1998 SHOPP EXHIBIT B, a summary of 1998 project funding and reservations, that is also attached.

**CALIFORNIA TRANSPORTATION COMMISSION**

**Approval of 1998 State Highway  
Operation & Protection Program (SHOPP)**

**Resolution #G-98-06**

- 1.1 WHEREAS Government Code Section 14526.5 requires Caltrans to prepare and submit to the Commission a 1998 State Highway Operation and Protection Program (SHOPP), containing projects relating to maintenance, rehabilitation, safety, and operations of the state highway system but not projects that add highway lane capacity to the system, covering the years 1998-2002; and
- 1.2 WHEREAS Government Code Section 14526.5 further requires Caltrans to submit the SHOPP, including comments from regional agency review, to the Commission by January 31, 1998; and
- 1.3 WHEREAS Government Code Section 14526.5 allows the Commission to review this program for adequacy, funding, and impact on the State Transportation Improvement Program (STIP), and requires the Commission then to approve a SHOPP and transmit it to the Governor and Legislature by April 1, 1998; and
- 1.4 WHEREAS Caltrans submitted a 1998 SHOPP to the Commission on January 31, 1998, including comments from regional agencies, and presented and discussed the SHOPP at the February 1998 Commission meeting; and
- 1.5 WHEREAS the Commission has reviewed the 1998 SHOPP and found it to be consistent with the level of work and funding needed as estimated in the ten-year State Highway System Rehabilitation Plan, and with the funding available as shown in the Fund Estimate for the 1998 STIP, and thus with appropriate funding levels for both SHOPP and STIP;
- 2.1 NOW THEREFORE BE IT RESOLVED that the Commission approves the 1998 SHOPP as submitted by Caltrans and revised March 1, 1998, with the exception noted below, at a program level of \$3,278,000,000 for the four years 1998-2002 including reservations in the amount of \$553,000,000 for projects to be identified during the next two years, for transmittal to the Governor and Legislature on April 1, 1998; and

- 2.2 BE IT FURTHER RESOLVED that the Commission gives conditional approval to thirteen projects -- two for \$35,883,000 in Los Angeles County, nine for \$21,224,000 in Orange County and two for \$8,754,000 in Sacramento County -- for development of traffic operations centers and related computer, communication, and traffic signal equipment, pending a satisfactory presentation by Caltrans to the Commission concerning four issues raised by the Commission in its review of the operations element of the ten-year State Highway System Rehabilitation Plan, after which funding for these thirteen projects will be released for allocation whenever the projects are ready for construction or installation; and
- 2.3 BE IT FURTHER RESOLVED that the Commission expects Caltrans to continue to monitor progress on delivery of the SHOPP, report periodically to the Commission about that progress, and report at each Commission meeting any changes in SHOPP project costs that exceed 20% and any new major projects to be added into the SHOPP using funding reservations.

# **1998 STATE HIGHWAY OPERATION AND PROTECTION PROGRAM (SHOPP)**

## **EXECUTIVE SUMMARY**

**APRIL 20, 1998**

The 1998 State Highway Operation and Protection Program (SHOPP) was prepared in accordance with Government Code Section 14526.5, Streets and Highways Code Section 164.6 and the strategies outlined in the Department's Policy for Management of the SHOPP (Exhibit A). The 1998 SHOPP is a four-year program of projects, 1998-99 through 2001-02, which have a purpose of traffic safety, roadway rehabilitation, roadside rehabilitation or operations related to the State highway system.

The 1998 SHOPP provides \$3.3 billion over the four-year period and is consistent with the 1998 State Transportation Improvement Program (STIP) Fund Estimate, approved by the California Transportation Commission (CTC) January 14, 1998.

The state highway system is aging and its use is increasing. Immediate needs are statewide and proposed expenditures are consistent with goals in the approved Ten-Year State Highway System Rehabilitation Plan. Following is a summary of the programmed projects and reservations for adding projects during the next mid-cycle process and a comparison to the Ten-Year State Highway System Rehabilitation Plan.

	<u>1998 SHOPP</u>	<u>Ten-Yr. Plan</u>
Program Categories		
Traffic Safety	\$204	\$267
Roadway Rehabilitation	2,041	2,438
Roadside Rehabilitation	84	160
Operations	411	413
Reservations	538	0
	-----	-----
1998 SHOPP Total	\$3,278	\$3,278
Minor Program	370	370
	-----	-----
Total	\$3,648	\$3,648

Funding has been increased for all four programming categories. Safety continues to be the top priority consistent with the Policy for Management of the SHOPP shown in Exhibit A.

A special emphasis is also being placed on roadway rehabilitation. Within this category there is currently about 12,000 lane miles of pavement rehabilitation needs. During the next four years the department plans to correct about 8,000 lane miles. This includes implementation of 300 lane miles of longer-life pavement on high traffic volume routes. Taking into account that new needs will be identified during this period, it is forecast that at the end of the period there will be about 7,800 lane miles of remaining pavement rehabilitation needs.

The 1998 SHOPP includes projects from the 1996 SHOPP Mid-cycle Revision and new projects which have approved Project Study Reports (PSR's) or equivalent documents that identify the scope, cost and delivery schedule.

## **CALIFORNIA DEPARTMENT OF TRANSPORTATION**

### **1998 STATE HIGHWAY OPERATION AND PROTECTION PROGRAM**

The 1998 State Highway Operation and Protection Program (SHOPP) has been prepared in accordance with Government Code Section 14526.5, Streets and Highways Code Section 164.6 and the strategies outlined in the Department's Policy for Management of the SHOPP (Exhibit A). The 1998 SHOPP is a four-year program of projects, 1998-99 through 2001-02.

#### **PURPOSE**

The purpose of the SHOPP is to preserve and protect the State highway system.

#### **PROGRAM LEVELS**

Streets and Highways Code Section 164.6 requires the department to prepare a ten-year state highway rehabilitation plan for the rehabilitation and reconstruction, or combination thereof, of all state highways and bridges owned by the state. A draft version of this plan was presented to the California Transportation Commission (CTC) June 5 and August 13, 1997, and it became the basis for the SHOPP funding level approved by the CTC September 18, 1997. This SHOPP funding level was included in the 1998 State Transportation Improvement Program (STIP) Fund Estimate approved by the CTC January 14, 1998. The Ten-Year State Highway System Rehabilitation Plan was submitted to the CTC for review and comments and has been transmitted to the Governor and the Legislature.

The 1998 SHOPP provides \$3.3 billion over the four-year period and is a \$777 million increase when compared to the 1996 baseline. Projects are grouped into four categories; traffic safety, roadway rehabilitation, roadside rehabilitation and operations. Safety continues to be the top priority consistent with the Policy for Management of the SHOPP. A special emphasis is also being placed on roadway rehabilitation. Within this category there is currently about 12,000 lane miles of pavement rehabilitation needs. During the next four years the department plans to correct about 8,000 lane miles. This includes implementation of 300 lane miles of longer-life pavement on high traffic volume routes. Taking into account that additional deterioration will occur during this period, it is forecast that at the end of the period there will be about 7,800 lane miles of remaining pavement rehabilitation needs. Another program under roadway rehabilitation is bridge rehabilitation. During this period it is planned to rehabilitate or replace about 450 bridges.

#### **PROGRAMMING POLICIES AND METHODOLOGY**

The 1998 SHOPP was developed in accordance with the strategies outlined in the Department's Policy of Management of the SHOPP. New projects are programmed according to safety and

rehabilitation needs in the year the department estimates that the projects can be delivered. All new projects have a Project Study Report (PSR) or equivalent document identifying the project's scope, estimated cost and delivery schedule.

A comprehensive review was completed for projects contained in the 1996 SHOPP Mid-cycle Revision which are being carried forward into the 1998 SHOPP. This proposal reflects required changes for scope, cost and/or delivery dates. In December 1997, the CTC approved increasing the upper cost limit for minor projects to \$750,000. The 1998 SHOPP reflects this new policy and prior programmed projects, that now qualify for the minor program, are not included in this new SHOPP program.

### **1998 SHOPP SUMMARY**

The following summary provides the number of projects and their value in millions of dollars for the four-year period, 1998-99 through 2001-02. A listing of the proposal by fiscal year is shown in Exhibit B.

	<u>Prior SHOPP</u>		<u>New Proj.</u>		<u>Total</u>		<u>10-Yr. Plan</u>
	<u>#</u>	<u>\$</u>	<u>#</u>	<u>\$</u>	<u>#</u>	<u>\$</u>	<u>\$</u>
Program Categories							
Traffic Safety	22	\$55	36	\$149	58	\$204	\$267
Roadway Rehabilitation	176	924	207	1,118	383	2,041	2,438
Roadside Rehabilitation	17	22	40	62	57	84	160
Operations	66	206	60	205	126	411	413
	----	-----	----	-----	----	-----	-----
Total	281	\$1,207	343	\$1,534	624	\$2,741	\$3,278
Reservations						538	0
						-----	-----
Total						\$3,278	\$3,278

Note: The program is developed in thousands of dollars and was rounded for this table.

### **RESERVATIONS**

The 1998 SHOPP includes reservations of \$538 million over the four-year period. Reservations of \$40 million for each of the first two years are an operating reserve for emergency needs. A larger reserve in the outer two years allows amendment of new projects into the program prior to the 2000 SHOPP and will facilitate developing the 1998 SHOPP Mid-cycle Revision. Details about the reservations are shown in Exhibit B.

## **LONG-LEAD TIME PROJECTS**

The department has identified eleven future SHOPP projects that involve a complex environmental process and require more than four years lead time for delivery of the construction contract documents. These projects are shown in Exhibit G.

## **GEOGRAPHICAL DISTRIBUTION**

The department's selection of projects for inclusion in the SHOPP is based on needs rather than on geographical distribution. Funding for SHOPP projects is not subject to the north/south split or county share requirements of Sections 188 and 188.8 of the Streets and Highways Code. For information purposes, Exhibit C is a 1998 SHOPP Summary of the projects programmed in each county by the four program categories. The 1998 SHOPP has projects programmed in all counties except Alpine and Sierra.

## **RESPONSE TO REGIONAL TRANSPORTATION AGENCY COMMENTS**

A draft of the 1998 Proposed SHOPP was sent to regional agencies on November 17, 1997, for review and comment. Copies of the responses from regional agencies requesting changes in the SHOPP are included in Exhibit F. The following are responses to the comments received:

### **City of Santa Maria**

Comments: Expressed concern about the pavement condition at three intersections on Route 135.

Reply: Our District Office staff reviewed the locations and will initiate a minor project during the 1999-2000 fiscal year to correct the problem.

### **Contra Costa Transportation Authority**

Comments: Desire two pavement rehabilitation projects to be coordinated with the proposed Route 680 high occupancy vehicle lane project which will be nominated for the 1998 STIP.

Reply: Frequently the department coordinates and sometimes combines STIP and SHOPP projects for construction purposes. Those decisions are made by the staff responsible for development of the detailed construction plans. The request will be forwarded to the Project Managers.

### **Del Norte Local Transportation Commission**

Comments: Questioned whether the SHOPP is a four-year or seven-year program. Requested that the Wilson Creek Stabilization project on Route 101 be programmed. Commented about lack of provisions for programming long-lead

time projects like this in the SHOPP. Requested that this project be included in the new Ten-Year State Highway System Rehabilitation Plan.

Reply: The SHOPP is a four-year program. The department uses a single data base for the technical versions of both the STIP and SHOPP documents. Since the STIP has been a seven-year program the data base has three years which do not apply to the SHOPP. The 1996 SHOPP included a list of 14 long-lead time projects which were authorized for completion of the environmental process. Due to staffing limitations, the planned work for the Wilson Creek Stabilization project was not accomplished. This project is included in the list of long-lead time projects for the 1998 SHOPP. The complex environmental process for this project results in at least six years being required to complete the environmental process and the detailed construction plans. The new Ten-Year State Highway System Rehabilitation Plan does not identify specific projects, but instead identifies funding needs like Wilson Creek and performance indicators so an appropriate level of funding can be identified in the STIP Fund Estimate for the projects to be identified in the SHOPP program document.

#### San Diego Association of Governments

Comments: Urged the department to consider adding the Route 78 Twin Oaks Valley Road interchange improvement to the program.

Reply: The department considers the proposal to be a capacity increasing project and not appropriate for programming in the SHOPP. It is recommended that the San Diego Association of Governments nominate this project for programming in the State Transportation Improvement Program (STIP) by including it in their Regional Transportation Improvement Program (RTIP) recommendations to the CTC.

#### San Luis Obispo Council of Governments

Comments: Indicated support for Caltrans District recommendations and especially for the forty or so SHOPP projects planned for Routes 41 and 46.

Reply: The department appreciates the support and cooperative effort. Unfortunately, it has been necessary to delete five lower priority operational improvement projects on Routes 41 and 46 in San Luis Obispo County. Their priorities on a statewide basis were below the threshold for funding this cycle. The priority threshold for operational SHOPP projects is being reanalyzed, and these projects will be reconsidered during the Mid-cycle SHOPP update.

#### Santa Barbara County Association of Governments

Comments: Recommended deletion of the project on Highway 101 in Santa Barbara to construct northbound and southbound auxiliary lanes between Olive Mill and San Ysidro Roads and to lengthen the southbound on-ramp at the Cabrillo Boulevard/Hot Springs Road interchange at a cost of \$5.3 million.

Reply: The department has not included this project and several other lower priority operational improvement projects in the 1998 SHOPP. Their priorities on a statewide basis were below the threshold for funding this cycle. A long-lead time project has been included for Route 101 in Santa Barbara to improve traffic operations.

#### Santa Cruz County Regional Transportation Commission

Comments: Provided their priorities and comments for five projects. Their top priority, a truck climbing lane on Route 17, was not included in the draft 1998 Proposed SHOPP.

Reply: It has been necessary to delete two lower priority operational improvement projects in Santa Cruz County. Their priorities on a statewide basis were below the threshold for funding this cycle. The truck climbing lane on Route 17 is being considered for eligibility in the 1998 STIP.

### **PROJECT LISTING**

Projects included in the 1998 SHOPP are shown in Exhibit H. The projects are grouped into the following four categories for each county:

- Traffic Safety
- Roadway Rehabilitation
- Roadside Rehabilitation
- Operations

Total project support is shown for each project listed. Some projects have been split or combined for the purpose of design or construction. A split or combine may occur during any phase of the project support process. This may result in disproportionate amount of the support costs being shown on each of the projects. The SHOPP includes projects crossing Metropolitan Planning Organizations boundaries which have been split for Federal funding purposes.

May 26, 1998

California Department of Transportation

Policy for Management of the  
State Highway Operation and Protection Program (SHOPP)

1. Seismic retrofit projects: Completion of the seismic retrofit program is one of the top priorities for the Department. Proposition 192 provides special funding for the Phase 2 and toll bridge seismic retrofit projects. Since the Proposition 192 funds are dedicated to this special purpose, they are being managed outside of the overall SHOPP program. Every seismic retrofit project will be proposed for the allocation of funds when it is delivered.
2. Traffic safety projects: Every identified traffic safety project will be programmed in the year in which the Department estimates that it can be delivered. Every traffic safety project will be proposed for allocation of funds when it is delivered, even if that is earlier than the year programmed. The SHOPP may include unprogrammed reservations to meet the anticipated needs for traffic safety projects not yet identified. This strategy applies only to those projects meeting the Department's specific criteria for traffic safety projects (i.e., safety index greater than 200, or equivalent safety warrant).
3. Other SHOPP projects: All SHOPP projects other than seismic retrofit or traffic safety projects will be programmed according to rehabilitation need and other program priorities, except that a project will not be programmed earlier than the year in which the Department estimates that it can be delivered.
4. Level of funding: The Ten-Year State Highway System Rehabilitation Plan and the most recently adopted STIP Fund Estimate establish the funds available for SHOPP purposes. Whenever the Department identifies a project cost increase or a new project to add to the SHOPP, it will identify the source of funding for the increase or new project, whether from an unprogrammed SHOPP reservation or from the deletion or decrease in cost of another project or projects.
5. Project cost and scoping: No project will be included in the SHOPP unless the Department has a completed Project Study Report (PSR), Project Study and Scoping Report (PSSR), or equivalent document identifying a specific project scope and its estimated cost and delivery schedule.

6. Review of project programming: The Department will develop its biennial proposed SHOPP in accordance with these strategies. In addition, the Department will conduct a comprehensive review of the SHOPP in accordance with these strategies at least once between approved SHOPP's. This means that the Department may propose to advance, slip, or delete projects included in the prior SHOPP, based on a review of the priorities, estimated costs, and estimated delivery dates of both old projects and new candidate projects.

The objectives of this strategy are:

- o to develop a SHOPP program that addresses the needs identified in the Ten-Year SHOPP Needs Plan;
- o to assure that State resources used for the operation and protection of the State highway system are focused on the highest priority needs;
- o to assure that the SHOPP, consistent with the STIP, reflects a specific project delivery plan and commitment; and
- o to provide goals and incentives for the identification of effective SHOPP projects and for the management of SHOPP project costs and schedules.

1998 SHOPP  
Fund Reservation Descriptions

Traffic Safety

Funds for traffic safety, median barrier, two and three lane roads, and Clean Up the Roadside Environment (CURE) projects. These projects must have a Safety Index of 200 or greater, or meet specific warrants in order to qualify for the Traffic Safety category.

Roadway Rehabilitation

Funds for pavement rehabilitation, longer-life pavement rehabilitation, bridge rehabilitation or replacement, and state funded emergency damage correction projects.

Roadside Rehabilitation

Funds for landscape area and irrigation system rehabilitation, maintenance worker safety improvements, limited new landscape areas, roadside rest area rehabilitation, and relinquishment of special environmental mitigation sites to agencies which are better prepared to provide for the long-term maintenance responsibilities.

Operations

Funds for non-capacity increasing operational improvements, commercial vehicle enforcement facilities (weigh stations), office facilities code requirements, transportation management centers, maintenance station facilities, equipment shops, Americans with Disabilities Act (ADA) improvements, hazardous material cleanup, replacing obsolete highway sign and lighting facilities, and \$800,000 per year for Surface Mining and Reclamation Act (SMARA) obligations.

Minor Program

SHOPP type improvements with a construction cost up to \$750,000.

② Attention: Mike Callahan (cc: Therese McMillan, MTC; Paul Maxwell, CCTA;  
Diane Steinhauser, District 04)  
FROM: Bob McCleary, Executive Director  
RE: Comments on Draft 1998 State Highway Operation and Protection Program

Thank you for the opportunity to comment on the subject draft program. Two projects warrant comment from the Authority: 25450K and 25310K. Our understanding is that these two projects would correct three of the four roadway undulations resulting from settlement currently found on I-680 just south of Marina Vista. (The fourth, the most northerly of the northbound undulations, we understand will be corrected as part of the new Benicia-Martinez Bridge project.)

Relative to these projects, we wanted to bring to your attention that our 1998 STIP list includes funding for project development and construction of High Occupancy Vehicle (HOV) lanes on I-680, between Marina Vista and the I-680/Oak Park overcrossing. Environmental review is underway at Authority expense. We are targeting construction of the I-680 HOV lanes for 2000. Your proposed reconstruction projects are scheduled for 1998/99 and 2000/01.

We suggest your consideration of whether the I-680 and pavement rehabilitation projects can be combined, in order to: assist with staging of the rehabilitation projects; minimize the duration of construction delays through the affected area; and reduce total costs for the projects. We are anticipating District 04 would design the HOV lanes based on the already-approved PSR; however, if there are any issues related to combining the projects which should be covered in the environmental documents, or any other issues you wish to discuss with us, please call me (510.256.4724) or Paul Maxwell (510.256.4735) of our staff.

RE: Draft 1998 State Highway Operation and Protection Program (SHOPP)

Dear Mr. Nicholas:

The Del Norte Local Transportation Commission (DNLTC), at the December 11, 1997 Commission meeting, reviewed the Draft 1998 State Highway Operation and Protection Program (SHOPP) as transmitted by your office on November 17, 1997. At that meeting, the DNLTC voted to submit the following comments:

The DNLTC recognizes that the SHOPP is a programming document with a four-year horizon; however, the Draft 1998 SHOPP spreadsheet provides for a seven-year horizon. If the Draft 1998 SHOPP is a programming document with a seven-year horizon, then the DNLTC submits that the Wilson Creek Stabilization Project, 01-DN-101-15.0/15.6, should be programmed in the 1998 SHOPP.

The DNLTC continues to be dismayed that there appears to be no provision for listing and resourcing long-lead time SHOPP candidate projects, such as the Wilson Creek Stabilization Project. The Wilson Creek Stabilization Project is of utmost importance to the Del Norte Region, and the DNLTC continues to be frustrated by the lack of programming flexibility within the current SHOPP programming process.

The DNLTC is aware that SB 45 requires the Department of Transportation to prepare a ten-year state rehabilitation plan for the rehabilitation and reconstruction, or combination thereof, of all state highways and bridges owned by the state. Further, this plan is to identify all rehabilitation needs for the ten-year period beginning on July 1, 1998, and ending on June 30, 2008, and shall include a schedule of improvements to complete all needed rehabilitation not later than June 30, 1008. This plan should identify priority long-lead time projects and further advance a strategy whereby these long-lead time projects are moved to programming. The DNLTC submits that the Wilson Creek Stabilization Project, 01-DN-101-15.0/15.6 should be identified as a priority long-lead time project in this ten-year plan.

Jim Nicholas, Program Manager  
Draft 1998 SHOPP  
December 23, 1997  
Page Two

Please consider these comments as the Draft 1998 SHOPP is reviewed and revised prior to finalization. The DNLTC submits that provisions for long-lead time SHOPP projects, such as the Wilson Creek Stabilization Project, should be included in the SHOPP programming document and in the ten-year plan.

Please feel welcome to call Kathryn Mathews, staff to DNLTC, at 707.465.3878, if you should have any questions relative to these comments.

Sincerely,

George R. Mayer  
CHAIRMAN

Re: 1998 Draft SHOPP

Dear Mr. Nicholas:

Thank you for the opportunity to review the Draft 1998 State Highway Operation and Protection Program.

Caltrans District 11 staff presented a summary of the draft SHOPP to our Transportation Subcommittee at its December 11, 1997 meeting. This subcommittee represents the full Board of Directors of the San Diego Association of Governments on transportation issues.

The Transportation Subcommittee urges Caltrans to consider adding the SR78/Twin Oaks Valley Road project to the draft program. This project includes the replacement of a narrow 2-lane bridge over SR78, which has substandard vertical clearance, with a widened bridge as part of a major interchange improvement effort. Allan Kosup with District 11 Program/Project Management has the details on this important project.

Thank you again for the chance to review the draft 1998 SHOPP.

Sincerely,

ERIC C. PAHLKE  
Engineering Director

ECP/cd

**RE: 1998 STATE HIGHWAY OPERATIONS AND PROTECTION PLAN -  
DISTRICT 5 FINAL PROPOSED PROJECTS**

Dear Mr. Nicholas:

This letter is to inform you of the San Luis Obispo Council of Government's (SLOCOG) strong support for the Caltrans District 5 1998 SHOPP program of projects for San Luis Obispo County. District 5 should be congratulated for their efforts in working closely with SLOCOG and the community in developing consensus and support for the SHOPP work program.

The SLOCOG Board reviewed and supported the District's preliminary SHOPP in October 1997. A Task Force for Highway 46, including local legislative participation from Assemblyman Bordonaro and Senator O'Connell, developed with Caltrans a collaborative listing of projects now included in the 1998 SHOPP. The SLOCOG Board is especially supportive of the forty or so SHOPP projects planned for State Route 46 and 41.

~~Should you have~~ any questions regarding the SLOCOG position on the 1998 SHOPP feel free to contact me at (805)781-4219.

Sincerely,

  
Ronald L. DeCarli  
Executive Director

cc: Assemblyman Tom Bordonaro  
Senator Jack O'Connell

December 9, 1997

OFFICE OF THE MAYOR

Mr. Kenneth Nelson  
California Department of Transportation  
50 Higuera Street  
San Luis Obispo, CA 93401

SUBJECT: DRAFT 1998 SHOPP PROJECT LIST

Dear Mr. Nelson:

Thank you for providing the City of Santa Maria the opportunity to comment on the draft 1998 SHOPP project list prepared by Caltrans.

In a letter sent to you in the spring of 1997, I expressed concern about the pavement condition at three intersections on Route 135. The City requests that Caltrans consider including a project in the 1998 SHOPP to rehabilitate these three intersections, which are Route 135/Route 166, Route 135/Donovan, and Route 135/Stowell.

The draft 1998 SHOPP project list for Santa Barbara County includes a funding distribution of 38.4 percent for the entire north county and only 7.2 percent for the City of Santa Maria. The remaining funds are proposed for the south county and the City of Santa Barbara. The proposed Route 135 intersection rehabilitation project would provide the citizens of Santa Maria with an improved transportation system.

A completed "Local Agency Request for Project" form is included for your consideration. Our City Engineer, Richard Sweet, is available to discuss this proposed project in more detail. He may be reached at (805) 925-0951 Ext. 227.

ABEL MALDONADO  
Mayor

Re: 1998 Draft SHOPP

Dear Mr. Nicholas:

At its meeting today, the Santa Barbara County Association of Governments considered the 1998 Draft SHOPP submitted for review by your November 17 letter.

After receiving testimony from the public, the SBCAG governing board voted to recommend deletion of the project on Highway 101 in Santa Barbara to construct NB and SB auxiliary lanes between Olive Mill and San Ysidro Roads and to lengthen the SB on-ramp at the Cabrillo Boulevard/Hot Springs Road Interchange at an escalated cost of \$5.337 million.

I have also enclosed for your information a copy of a December 17 letter from the Mayor of Santa Barbara advising the SBCAG board of a previous action by the Santa Barbara City Council to oppose the inclusion in the 1998 SHOPP of the SB on-ramp project at the Cabrillo Boulevard/Hot Springs Road interchange. The City recommends that this proposed project continue to be evaluated by the Project Development Team as an element of the 1996 STIP project to improve and revise this interchange.

Please let me know if I can provide any additional information or clarification of the SBCAG board's review of the 1998 Draft SHOPP.

Sincerely,

  
Gerald R. Lorden  
Executive Director

RE: ITEM #8: 1998 STATE HIGHWAY OPERATION AND PROTECTION  
PROGRAM (SHOPP)

Fellow Board Members:

I have been directed by the Council of the City of Santa Barbara to comment on the Caltrans draft 1998 SHOPP. The City opposes Caltrans' proposal to include improvements to the Cabrillo/Hot Springs Southboard On-Ramp in the 1998 SHOPP.

The City is currently participating with Caltrans and SBCAG Staff on a Project Development Team (PDT) to develop improvements to the Cabrillo/Hot Springs Interchange. While we are willing to entertain the project that Caltrans is proposing to alleviate an existing safety concern, the City believes that the best process to discuss this project is in the PDT, and not SHOPP. By placing the project in the SHOPP program, the City believes that Caltrans is circumventing the established process.

We request that the SBCAG Board forward comments to the California Transportation Commission (CTC) in opposition to this project for SHOPP funding.

Sincerely,

*Harriet Miller*

RE: Draft 1998 State Highway Operation and Protection Program  
Santa Cruz County Projects

TRANSPORTATION  
POLICY COMMITTEE ☐

Dear Mr. Nicholas:

RAIL OVERSIGHT  
COMMITTEE ☐

The Santa Cruz County Regional Transportation Commission (SCCRTC) staff has reviewed the draft 1998 State Highway Operation and Protection Program (SHOPP) projects nominated for Santa Cruz County..

BUDGET &  
ADMINISTRATION  
PERSONNEL  
COMMITTEE ☐

We look forward to our remaining 1996 SHOPP project, the Highway 1 rehabilitation in the Watsonville area, proceeding to construction early in 1998. For the 1998 SHOPP, our five highest regional priorities are as follows (in order of importance):

INTERAGENCY  
TECHNICAL  
ADVISORY  
COMMITTEE ☐

- 1) Highway 17 Truck Climbing Lane;
- 2) Highway 129 at Rogge Lane (EA45640K);
- 3) Highways 129 and 152 (EAs 430501 and 43040K); and
- 4) Highway 9 Slope Stabilization.

BICYCLE COMMITTEE ☐

These projects are of high priority to our region for the reasons listed below.

ELDERLY & DISABLED  
TRANSPORTATION  
ADVISORY COMMITTEE ☐

1. Highway 17 Truck Climbing Lane. SCCRTC would like to add this operational project to the 1998 SHOPP list. While this project is not currently a candidate, a project study report has already been prepared and the costs were recently updated. Highway 17 is a critical goods movement route and economic link between Santa Cruz and Santa Clara counties. Trucks are a significant portion of traffic on this route and impede traffic in areas with steep grades. Addition of this 1.1 mile truck climbing lane at the Summit will improve traffic operations on this heavily used corridor. For these reasons, the Highway 17 Truck Climbing Lane is Santa Cruz County's highest priority for the 1998 SHOPP.

MEMBER AGENCIES: SANTA CRUZ METROPOLITAN TRANSIT DISTRICT, COUNTY OF SANTA CRUZ, CALTRANS,  
CITIES OF CAPITOLA, SANTA CRUZ, SCOTTS VALLEY, WATSONVILLE

2. Highway 129 at Rogge Lane (EA45640K). This vital safety project is the second priority for the 1998 SHOPP. The lack of a left turn pocket on this busy section of Highway 129 creates a dangerous situation in which those making left turns are hidden by a blind curve. As fast-moving traffic approaches, there is a serious risk for a rear end collisions. This project will provide greater safety for with turning movements to and from Rogge Lane by creating left/right turn channelization and acceleration lanes. We join with Caltrans District 5 in requesting that this project be moved forward to the 99/00 construction year due to its urgency.
3. Highways 129 and 152 (EAs 430501 and 43040K). These projects will upgrade and install interconnected signals on Highways 129 and 152 through downtown Watsonville. Traffic currently crawls through downtown during most times of the day, due in large part to the lack of coordinated traffic signals. These projects will significantly improve traffic operations on these heavily used highways.
4. Highway 9 Slope Stabilization. Highway 9 is an alternative route to Santa Clara County as well as the primary access to the San Lorenzo Valley. Yet Highway 9 is subject to frequent slides during the rainy months. This project will greatly assist in avoiding future slides on this critical highway.

We appreciate your consideration of these five critical SHOPP projects for the 1998 SHOPP. Please contact me at (408) 460-3213 or Amin Surani of my staff at (408) 460-3211 for further information on the regional need for these projects.

Sincerely,

Linda Wilshusen  
Executive Director
